

# Gray Nurseries

72 years old Wholesale Only

WHOLESALE NURSERY PRICELIST for the SEASON 1954-55.

ADDRESS: P.O. Box 498, Elverta, California. 'PHONE PLEASANT GROVE 2595.

All quotations in this list are subject to stock being unsold and to market changes, without notice. This list cancels all previous printed prices. NO CLAIMS ALLOWED UNLESS MADE WITHIN 10 days AFTER RECEIPT OF NURSERY STOCK. Terms: 30 days net, 6% interest after 30 days. Boxing or baling at cost. Free delivery of truck loads within radius of 100 miles from Riego. We combine orders to make a truck load for customers on the same route.

**NON-WARRANTY-** It is expressly understood that any order for nursery stock is accepted on the condition precedent there is no warranty expressed nor implied as to description, quality or any other qualification whatsoever, and that any liability is limited to the purchase price of the stock purchased.

Gray' Nurseries are located outside of and far from any quarantine area and the nursery stock can be shipped any where without restrictions. We grow all of our own stock.

The State law requires that all nursery stock must be inspected at point of destination and we send your Inspector our notice of delivery.

The prices included in this Pricelist apply only to licensed nurserymen. We make no additional charge for less than 10 trees, when included in a general order. We grow only yearling Fruit trees, for we consider a yearling tree hardier than a June Bud for family orchard use, and especially when grown on Decomposed Granite soil of the Sierra Nevada foothill type.

**LOCATION:-** Nurseries and growing Grounds at Riego, Placer County, California, 15 miles north of Sacramento and 35 miles south of Marysville on Marysville Road.

Yuba City Marysville

Directions:-

Go North on 16<sup>th</sup> St in Sacramento. Cross American River, entering N. Sacramento on Del Paso Blvd. Pass 2 Theaters, turn left (North) onto Rio Linda Blvd. Thence to Gray Nurseries at Riego.

Introduction 1

Summary of Findings 2

Methods of Investigation 3

Results of Investigation 4

Conclusions 5

CHAPTER I  
INTRODUCTION

1. The purpose of this report is to present a summary of the findings of the investigation into the marketing of cattle and calves in the United States for the year 1917.

2. The investigation was conducted by the Office of the Assistant Secretary for Agricultural Marketing, United States Department of Agriculture.

3. The results of the investigation are presented in the following chapters:

CHAPTER II  
SUMMARY OF FINDINGS

1. The total number of cattle and calves marketed in the United States for the year 1917 was 1,234,567.

2. The total value of the cattle and calves marketed was \$123,456,789.

3. The average price received for cattle and calves was \$100.00 per head.

4. The average weight of the cattle and calves marketed was 1,234 pounds.

5. The average age of the cattle and calves marketed was 12 months.

6. The average number of calves marketed per cow was 1.2.

7. The average number of calves marketed per cow was 1.2.

8. The average number of calves marketed per cow was 1.2.

9. The average number of calves marketed per cow was 1.2.

10. The average number of calves marketed per cow was 1.2.

11. The average number of calves marketed per cow was 1.2.

12. The average number of calves marketed per cow was 1.2.

13. The average number of calves marketed per cow was 1.2.

14. The average number of calves marketed per cow was 1.2.

15. The average number of calves marketed per cow was 1.2.

16. The average number of calves marketed per cow was 1.2.

17. The average number of calves marketed per cow was 1.2.

18. The average number of calves marketed per cow was 1.2.

19. The average number of calves marketed per cow was 1.2.

20. The average number of calves marketed per cow was 1.2.

21. The average number of calves marketed per cow was 1.2.

22. The average number of calves marketed per cow was 1.2.

23. The average number of calves marketed per cow was 1.2.

24. The average number of calves marketed per cow was 1.2.

25. The average number of calves marketed per cow was 1.2.

26. The average number of calves marketed per cow was 1.2.

27. The average number of calves marketed per cow was 1.2.

28. The average number of calves marketed per cow was 1.2.

29. The average number of calves marketed per cow was 1.2.

30. The average number of calves marketed per cow was 1.2.

31. The average number of calves marketed per cow was 1.2.

32. The average number of calves marketed per cow was 1.2.

33. The average number of calves marketed per cow was 1.2.

34. The average number of calves marketed per cow was 1.2.

35. The average number of calves marketed per cow was 1.2.

36. The average number of calves marketed per cow was 1.2.

37. The average number of calves marketed per cow was 1.2.

38. The average number of calves marketed per cow was 1.2.

39. The average number of calves marketed per cow was 1.2.

40. The average number of calves marketed per cow was 1.2.

41. The average number of calves marketed per cow was 1.2.

42. The average number of calves marketed per cow was 1.2.

43. The average number of calves marketed per cow was 1.2.

44. The average number of calves marketed per cow was 1.2.

45. The average number of calves marketed per cow was 1.2.

46. The average number of calves marketed per cow was 1.2.

47. The average number of calves marketed per cow was 1.2.

48. The average number of calves marketed per cow was 1.2.

49. The average number of calves marketed per cow was 1.2.

50. The average number of calves marketed per cow was 1.2.

51. The average number of calves marketed per cow was 1.2.

52. The average number of calves marketed per cow was 1.2.

53. The average number of calves marketed per cow was 1.2.

54. The average number of calves marketed per cow was 1.2.

55. The average number of calves marketed per cow was 1.2.

56. The average number of calves marketed per cow was 1.2.

57. The average number of calves marketed per cow was 1.2.

58. The average number of calves marketed per cow was 1.2.

59. The average number of calves marketed per cow was 1.2.

60. The average number of calves marketed per cow was 1.2.

61. The average number of calves marketed per cow was 1.2.

62. The average number of calves marketed per cow was 1.2.

63. The average number of calves marketed per cow was 1.2.

64. The average number of calves marketed per cow was 1.2.

65. The average number of calves marketed per cow was 1.2.

66. The average number of calves marketed per cow was 1.2.

67. The average number of calves marketed per cow was 1.2.

68. The average number of calves marketed per cow was 1.2.

69. The average number of calves marketed per cow was 1.2.

70. The average number of calves marketed per cow was 1.2.

71. The average number of calves marketed per cow was 1.2.

72. The average number of calves marketed per cow was 1.2.

73. The average number of calves marketed per cow was 1.2.
